

Weekly Report 7

This week I have finished the generating code of our custom blocks that we have at the moment. I have also finalised our initial template when a user creates a bot. This is setup so there is a function block that cannot be edited or deleted, and must return a 'Coordinate'.

<https://github.com/DavidDudson/Capstone/commit/dce63633e200f54041b6fbada2cb8862e5a2c606>

<https://github.com/DavidDudson/Capstone/commit/9a107838eba6da0ac313c9ef8208a3d1d087317f>

I have now started creating some of the backend code that will be used by the blocks.
